BOOK SYNOPSIS

Four of Ibsens most important plays in superb modern translations, part of the new Penguin Ibsen series. With her assertion that she is first and foremost a human being, Nora Helmer sent shockwaves throughout Europe when she appeared in Ibsens greatest and most famous play, A Dolls House. Depicting one womans struggle to be treated as a rational human being, and not merely a wife, mother or fragile doll, the play changed the course of theatrical history and sparked debates worldwide about the roles of men and women in society. Ibsens follow-up Ghosts was no less radical, with its unrelenting investigation into religious hypocrisy, family secrets and sexual double-dealing. These two masterpieces are accompanied here by The Pillars of Society and An Enemy of the People, both set in Norwegian coastal towns and exploring the tensions and dark compromises at the heart of society. The new Penguin series of Ibsens major plays offer the best available editions in English, under the general editorship of Tore Rem. All the plays have been freshly translated by the best modern translators and are based on the recently published, definitive Norwegian edition of Ibsens works. They include new introductions and editorial apparatus by leading scholars.
