## **BOOK SYNOPSIS**

Paint by Sticker is the most exciting new idea in activity books, both for grown-ups and kids. A compelling activity for crafters and artists, doodlers and colorers of all ages, each Paint by Sticker book includes everything you need to create twelve vibrant, full-color "paintings." The original images are rendered in low-poly, a computer graphics style using geometric polygon shapes to create a 3D effect. As in paint-by-number, each template is divided into dozens of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next--its an activity thats utterly absorbing, both in the pleasure of peeling and sticking and the growing satisfaction of watching a "painting" come to life, emerging from a flat black-and-white illustration to a dazzling image with color, body, and spirit. Paint by Sticker: Birds celebrates the rainbow of colors and shapes of the avian world: a red-headed woodpecker, a blue jay, an orange and black Baltimore oriole, an electric bright hummingbird.
